

SUPPORT THE TWQA PAC

A Unified Voice for Texas Water Quality.

SUPPORT PAC TODAY

TWQA represents the household, commercial and industrial water quality improvement industry in Texas. The PAC gives members a unified way to participate in the political process and help educate decision-makers about the work our industry does.

1 WHAT IS THE TWQA PAC?

A PAC is a political action committee that can collect eligible contributions and use those funds to support political campaigns or specific candidates. The TWQA PAC gives members a coordinated way to support key Texas elected officials and candidates.

In plain English: it helps the industry show up with one coordinated voice where decisions are made.

A STRONGER VOICE IN AUSTIN

When candidates and office holders run for office, they raise money to reach voters. The TWQA PAC allows our industry to show support for candidates who write or influence the laws governing our work.

Texas Water Quality. One Industry Voice. 

2 WHY IT MATTERS

- Texas law created the Water Treatment Specialist License, administered by TCEQ.
- Texas House and Senate members draft and enact the laws that shape industry rules
- Many officials are unfamiliar with the unique needs of the water treatment industry

Good policy starts with good information - and relationships matter.
